### **Stainless UK Ltd Environmental Policy**

Stainless UK Ltd manufactures and stocks stainless steel products for civil engineering, geotechnical engineering, and heat and corrosion-resistant applications. Our products are supplied worldwide, with a primary focus on the UK and Ireland.

Our operations generate only a minor environmental impact, and we recognise our responsibilities to our employees, the general public, and the environment.

Stainless steel is a 100% recyclable material, with between 60% and 80% of all new stainless steel coming from scrap products. Stainless UK Ltd recycles 100% of its stainless steel scrap, ensuring no raw material is wasted during the manufacturing process.

We are committed to the prevention of pollution and compliance with all relevant environmental legislation and regulations, including the Environment Act 2021. Stainless UK Ltd operates in accordance with the BS EN 14001 standard.
